Brigham Selves Prohibition Question—Brigham, the little city to the

north in Box Elder county, has solved the prohibition question in a manner which ought to cause some of the state legislators to sit up and take notice. The city fathers of Brigham were not the least bit arbitrary about the matter. Said they to the saloonkeepers, "Certainly you will be allowed to run, go ahead. But—your license beginning will be only \$1,500 a year; just a slight increase over the \$1,000 per year you have been paying. What, going? Well, so long." And so at midnight, June 30, the two saloons now doing business in Brigham will likely "fold their tents like the Arabs, and silently steal away," as the license is prohibitive, even in Brigham.

A pleasant feature of the special was a car fitted up with a piano and other musical instruments and a clever orchestra was organized from among musicians in the train. A steam callopie was also arranged in the car and was a factor in all musical programs arranged for the entertainment of the Shriners and the general public. There were other attractions also and nothing but champagne—and plenty of the sparkling vintage—was served by those in charge of that department. Among those who joined the special at Ogden for a trip to Louisville were Clem Schramm, Joy H. Johnson, Sid Evans and other Salt Laker.

Embezzlement Charge—Upon the complaint of William Alexander, a jeweler of Salt Lake, I. Rubenstein, a dealer in jewelry at Ogden, was arrested on the charge of embezzlement. It appears that during the racing meet at Ogden an agent of Alexander's came to Ogden and either sold or entrusted a diamond ring, valued at \$275, with Rubenstein. Rubenstein claims he loaned Alexander some money. A dispute arose over the title to the property, resulting in a warrant being issued for Rubenstein's arrest. Bond was furnished by the latter's friends in the sum of \$500, pending his hearing.

BOY ARRESTED FOR CARRYING A GUN

A 17-year-old youth, who gave his name as Roy Amerson, was arrested by Officer Shumaker yesterday morning in the railroad yards and charged with carrying concealed weapons. The officer noticed the boy slouching along the tracks, apparently unacquainted with his surroundings, and stopped him for investigation. Amerson stated that he was from the east and was going to Canada. The officer noticed a suspicious bulging of the boy's coat and upon opening the latter he was surprised to find a huge loaded revolver of a modern pattern which was suspended from the boy's neck by a bit of rope.

When searched at the station the prisoner was found in possession of nearly \$25 in cash and he was ordered held for investigation. The officers state that boys found skulking about the railroad yards with loaded revolvers and considerable sums of "spending money" are regarded with more or less suspicion, and Amerson's identity will be looked into closely.

Poulson Released by Municipal Court

Another farcical trial for violating the speed regulations for automobiles was gone through with in municipal court yesterday morning.

ing. Peter M. Poulson was charged with the offense and his plea was "Not guilty." He was released.

Special Speed Officer William Reast took the stand and swore that Poulson was going at a rate of at least twenty miles an hour when he discovered him approaching and placed him under arrest.

The defendant was called to give his version of the affair and swore that he could not have been going at a greater speed than seven or eight miles an hour; in fact, his machine was not capable of running much slower than it was at the time mentioned.

Officer Reast then called a witness who was with him at the time for the purpose of timing and judging of the speed of machines. The witness stated that there was no doubt but that the automobile had been speeding at least twenty miles an hour at the time, and his experience as a railroad

man was offered as qualification for judging.

There being no more witnesses to be examined, and the defendant having nothing more to say, which to amuse the court room, the judge announced that he would "take the case under advisement." Mr. Poulson was then released.

Highway Commissioner James H. McDonald of Connecticut has bought a touring car, especially constructed for use in inspecting roads. There is a rack for a typewriter and a stenographer will accompany him on his runs. There is also a special type of graduated, and a most complete system of electric lighting.

If I ask a young woman to go to a ball am I expected to include her champagne? IGNORANT.

In the invitation, yes.
